

## RECYCLING TIPS Co-operation is the Key!

Containers need to be rinsed. Just rinse milk and juice jugs, steel cans etc in your dish water when you are finished the dishes.

Your recyclables need to be sorted in the containers provided at the sheds. Do not leave bags for someone else to sort, just take a minute and sort them in the proper containers. If the containers are full, just leave bags holding one recyclable item each in the shed.

Kleenex, cardboard fast food containers, Tim Horton's cups, used tin foil and used straws are items that cannot be recycled so just deposit them in your household garbage.

Boxboard and cardboard must be flattened, so please take a second and open the ends of the boxes and flatten them. Cardboard should be flattened and put in recycling sheds.

Lids and caps need to be removed from containers.

Only bagged household garbage is to be deposited in dumpsters. Fridges, hot water tanks, and any other refuse **MUST** be taken to the landfill site. Summer Hours are Tuesday 1:00 – 8:00pm  
Winter hours are Tuesday 1:00 – 6:00 pm;  
Thursday and Saturday 1:00 – 4:00 pm all year.

Recycling sheds and dumpsters are located in several areas throughout the R.M. of Strathclair to service the residents and ratepayers of the municipality.

Suggestions on improving our recycling program are Welcome, and would be appreciated. Please bring your suggestions to the R.M. of Strathclair Office. Thanks!
